# The Good News: Separation of Housing From Services is Best Practice

---

- Finding housing is challenging, but can lead to better outcomes
  - Individuals can choose with whom they live
  - If the service provider is a poor fit, the individual can change providers without moving
  - If a live-in caregiver quits, the caregiver leaves, not the person with a disability

# Don't Panic! Plan\*

---

- Learn the Housing Equation
  - Rules govern which government programs can be combined, which can't, what they can be used for and where
- Develop a housing strategy that you can implement over time; 5-10 years is not uncommon
  - At 18, start taking concrete steps
  - Don't wait until you're ready for your family member to move out – because when you start taking steps is when the 5-10 year clock starts!
- Develop assets (before 18, if possible!)
- Develop your family member's skills

# The housing equation

---

- Supportive services almost always cost more than bricks and mortar expenses
- Don't forget this doesn't include spending money, transportation, etc.

# The Big 4: SSI, SSDI, Sec. 8, MassHealth

---

## ○ SSI

- \$577-\$1,189/month, depending on living situation
- Makes you eligible for MassHealth
- Can be used for housing or services
- Income and asset limits

## ○ SSDI

- Based on the work history of the parent or of the individual
  - If based on parent's history, kicks in when parent retires, becomes disabled, or dies
- Usually pays more than SSI
- Makes you eligible for Medicare
- Can be used for housing or services
- Fewer income and asset limits

# The Big 4: SSI, SSDI, Sec. 8, MassHealth

---

- Sec. 8
  - Individual pays 30% of income in rent to landlord; the balance is paid to the landlord with funds from the US Dept. of Housing and Urban Development
  - Will not affect SSI or MassHealth benefits
  - Can be a 10-12 year wait
  - Having a family member be the landlord can be permitted as a reasonable accommodation, but the person renting must live in a legal, separate unit
  - “18? Section 8!” ([www.18section8.org](http://www.18section8.org))
  - Come to an AHP Sec. 8 sign-up clinic

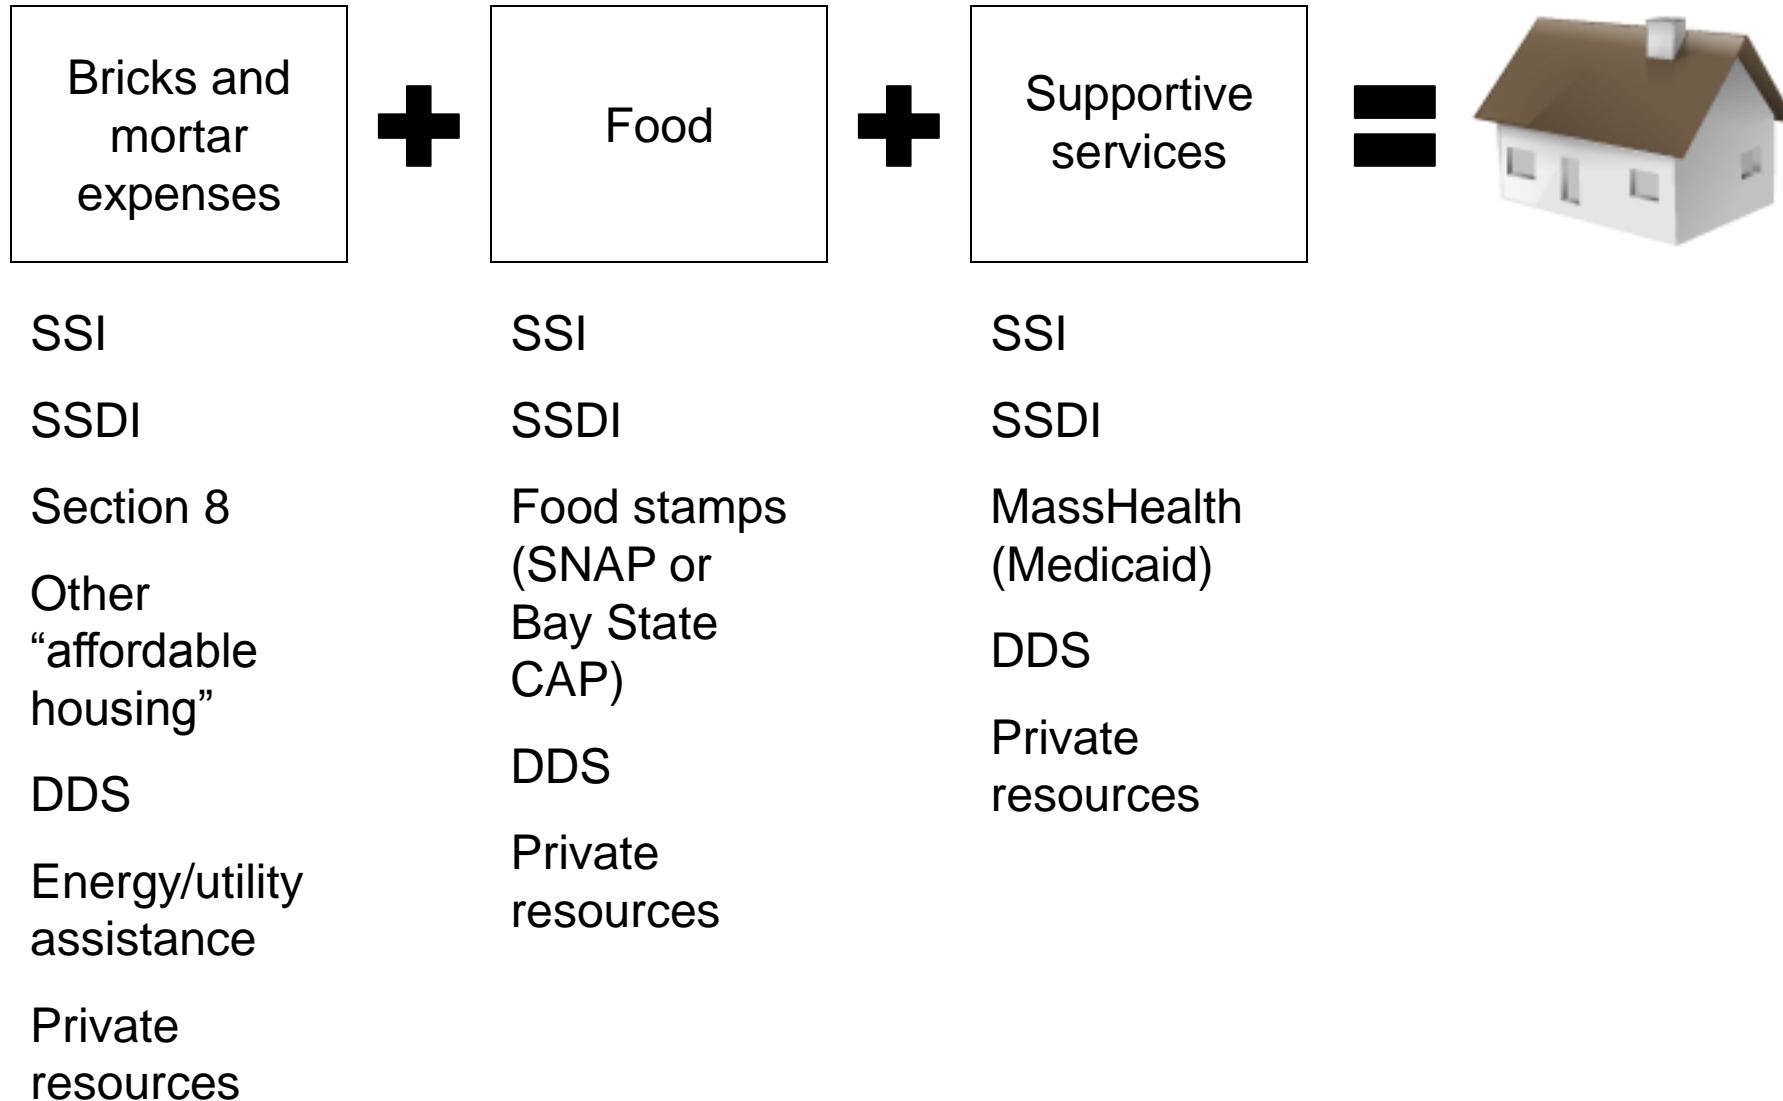

# The Big 4: SSI, SSDI, Sec. 8, MassHealth

---

- MassHealth
  - The main way to pay for services
  - “State Plan Services” – one of the few entitlements in the adult world
    - Adult Family Care / Adult Foster Care (@\$26 or \$52/day)
      - Can’t be combined with food stamps
    - Personal Care Attendant (PCA) (allocated a budget for a certain number of hours per week)
    - Group Adult Foster Care (@\$1227/mo)

# Developing a housing strategy: housing's effect on benefits

---

Family buys  
(reduces  
benefits)

Family buys;  
individual  
rents from  
family  
(May or may  
not reduce  
benefits;  
depends on  
amount of  
rent)

Family rents  
a house or  
apartment  
for the  
individual  
(reduces  
benefits)

Individual  
rents with  
help from  
family  
(reduces  
benefits)

Individual  
rents  
(does not  
reduce  
benefits)

# Developing a housing strategy: possible ways to acquire property\*

---

- Convert basement or garage (be aware of zoning)
- Add on an accessory apartment (be aware of zoning)
- Sell home and buy two condos
- Sell home and buy a two or three family
  - Third unit might be for rental income or maybe two families buy together
- Individual can (if income is high enough to qualify for a mortgage) enter a first-time homebuyer lottery
- Buy a condo or house (either alone or with other families)

\* Nothing here constitutes legal, financial or real estate advice

# Some possible housing strategies (1)

---

## ○ Liam

- Applies for an apartment in state senior housing and gets in after 3 years
- Uses Group Adult Foster Care to pay for two hours a day of services

## ○ Ana

- Her parents give her a fixed amount every month, which she combines with her own funds to get an apartment in private affordable housing

\* Nothing here constitutes legal, financial or real estate advice

## Some possible housing strategies (2)

---

### ○ Raj

- Gets on the Sec. 8 waiting list at 18, and waits 10 years for a voucher
- When Raj gets his voucher, his family uses a home equity loan to convert the garage to an apartment
- Raj uses individual support hours from DDS

\* Nothing here constitutes legal, financial or real estate advice

# Some possible housing strategies (3)

---

## ○ Sue

- Gets on the Sec. 8 waiting list at 18, and waits 10 years for a voucher
- While waiting, her mother is her Adult Family Care provider, and her father is her guardian
- Her mother saves the AFC stipend for 10 years, acquiring \$90,000 to use as a down payment
- When she gets her voucher, her parents buy her a condo, and she uses the voucher to pay rent; her parents use the rent to pay the mortgage
- An Adult Foster Care provider moves in with Sue
- Sue's parents retire, and Sue moves onto SSDI, increasing her income

\* Nothing here constitutes legal, financial or real estate advice

# Housing strategies should reflect a vision

---

- Person-centered planning
  - Method for your family member to plan a future
  - Relies on circles of support to carry out plans
- Letter of intent
  - Statement by parents/guardians of intent for the person's future
    - Nitty-gritty information (doctors, medications, medical history, location of life insurance policy, will, etc.)
    - family member's likes, dislikes, favorite places/activities/videos, etc.

# How do I develop assets?\*

---

- Save, save, save
- Financial planning
  - No assets in the individual's name (make sure other family members know this)
    - Can lose eligibility for government benefits
  - ABLE accounts: go to <http://www.fidelity.com/able/attainable/overview>
  - Individual Development Account
    - Exception to the rule
  - Special needs trust
    - Also an exception to the rule
    - Two kinds: 3<sup>rd</sup> party and self-funded
  - More life insurance often recommended

\* Nothing here constitutes legal, financial or real estate advice

# What skills does my family member need and why are they so important?

---

- A recent study showed adaptive living skills is the single most important predictor of success for adults with autism\*
- The more skills your family member has, the cheaper staffing costs will be
- Adolescent Autonomy Checklist
