Please note - you can use either of these templates, or submit the budget using your own agency template. Please include a short narrative with your budget describing the use of funds.

We assume some in-kind will be provided for two reasons:

1. Goal is to integrate or include activities within your typical program
2. Given the size of the grants, we expect core staffing of other resources will naturally be incorporated.

We realize certain in-kind contributions will be difficult to document financially, so you are welcome to include those in your budget narrative.
