Have many friendships  
Makes me happy and grateful  
My friends don't judge me

---

Thankful for friendship  
You always need two to play  
Commonality!

---

What we need is love  
Where we are all together  
It makes us complete

---

Hands meet with kindness  
Hearts grow side by side by side  
Friendship lights our path

---

Having friends brings joy  
Adventure, excitement, fun  
Getting through tough times!

---

Being Together

Playing music in a band

It's all about having fun

---

You first invite me

Then I can say yes or no

I yearn to say yes

---

You are my dear friend

Life is bright because of you

Our friendship is blessed

---

Sun shines on our friends

Celestial light on us

Thanks for what's given

---

Introduce yourself

Friendship will open the world

A warm smile goes far

---

Friends are amazing  
Friendship is necessary  
Friends are important!

---

Communication  
Sharing laughter and interests  
Caring and support

---

Friends are there for me  
In good times and in bad times  
And I'm there for them

---

Friends make me happy  
They lift me up when I'm down  
Together we shine

---

I'm seen and valued  
Sitting together laughing  
Friends are forever

---

Friendships save our lives  
They add sparkle and safety  
We need to belong

---

I like you a lot  
We don't need words to connect  
We find common fun!
